

Amy Degenhart
Degenhartshedd Architecture + Urban Design

Biography

Amy Degenhart is a Fellow of the Australian Institute of Architects and a Director of multiple companies, her consultancy practice as well as Community Benefit Developments, the development entity delivering her affordable, innovative tiny lot housing visions.

While the degenhartSHEDD architecture + urban design motto is: "Imagine better homes, better places and a better bottom line", "imagining" is no replacement for actually doing, with her local ENVI Micro Urban Village last year delivering the smallest freehold residential lot in Australia.
